“

TESTIMONIAL

As a nurse with 25 years of experience in the medical field, I have seen my fair share of post- tonsillectomy recoveries, and I can confidently say that my daughter's recent experience was a revelation, all thanks to the innovative tonsil patch device... ”

In a recent clinical trial using Sealk findings revealed:

- Tonsil beds treated with Sealk healed faster*
- 64% of patients reported less pain*
- More than 40% pain reduction*
- Decreased risk of infection*
- Reduced need for pain medication*
